Subject Index

Acarbose, dose-response profile of, in older subjects with type 2 diabetes, 319(5):334–337

Access to care, restricting Medicaid payments for transportation: effects on inner-city patients' health care, 319(5):326–333

Acid-base disorders, complications of diuretics, 319(1):10–24

Acromegaly, transient diabetes insipidus and hypopituitarism after pituitary apoplexy: rare association with pericardial effusion and painless thyroiditis, 319(4):261–264

Addison disease, after appendicitis, 319(3):195–196

Adrenal gland
- Addison disease after appendicitis, 319(3):195–196
- idiopathic adrenal hemorrhage, 319(5): 340–342

Adrenergic agonists, restless legs syndrome: clinical features and treatment, 319(6):397–403

Adverse drug effects
- complications of diuretics, 319(1):10–24
- convulsions induced by metronidazole treatment for *Clostridium difficile*-associated disease in chronic renal failure, 319(5):338–339
- lymphocytic intracellular calcium in patient with complicated verapamil overdose, 319(1):63–67

African Americans, focal segmental glomerulosclerosis in: effects of steroids and angiotensin converting enzyme inhibitors, 319(5):320–325

Aging
- dose-response profile of acarbose in older subjects with type 2 diabetes, 319(5):334–337
- primary meningococcal pneumonia in elderly patients, 319(4):255–257

AIDS
- acute renal failure in HIV-infected patients: brief review of common causes, 319(6):385–391
- Epstein-Barr virus infection in patients with immunodeficiency disorders, 319(6):392–396

Alcoholism, etiology and diagnostic evaluation of macrocytosis, 319(6):343–352

Allergic bronchopulmonary aspergillosis, syndromes of severe asthma, 319(3):166–176

Ambulatory care, beyond diagnosis: patient mix and challenges to patient care in ambulatory training sites, 319(2):106–110

Angiotensin-converting enzyme inhibitors, focal segmental glomerulosclerosis in African Americans: effects of steroids and, 319(5):320–325

Anthropology, teaching in medical curriculum, 319(5):297–305

Antibiotics, and return visits for respiratory illness: comparison of pooled versus hierarchical statistical methods, 319(6):360–365

Antibodies in clinical neurology
- acquired neuromyotonia: new autoantibody-mediated neuronal potassium channelopathy, 319(4):209–216
- antibodies to calcium channel and synaptotagmin in Lambert-Easton myasthenic syndrome, 319(4):204–208
- antiglycolipid antibodies in Guillain-Barré syndrome and autoimmune neuropathies, 319(4):234–239
- autoantibodies in inflammatory myopathies, 319(4):227–233
- autoantibodies in paraneoplastic neurological syndrome, 319(4):217–226
- symposium introduction, 319(4):203

Anticonvulsants, restless legs syndrome: clinical features and treatment, 319(6):397–403

Appendicitis, Addison disease after, 319(3):195–196

Art, seeing patients and life contexts: visual arts in medical education, 319(5):292–296

Arterial disease
- internal carotid artery occlusion in patient with malignant peritoneal mesothelioma: is it a sign of malignant-related thrombosis?, 319(4): 265–267
- interventional revascularization of left main coronary artery stenosis with new devices: two cases of "unprotected" left main stenosis treated with atherectomy and stenting, 319(5):314–319
- use of intraluminal stents in the treatment of carotid, renal, and peripheral arterial disease, 319(2):111–117

Aspirin therapy, idiopathic adrenal hemorrhage, 319(5):340–342

Asthma
- effect of disease states on theophylline serum concentrations: are we still vigilant?, 319(3):177–182
- severe, syndromes of, 319(3):166–176

Ataxia telangiectasia, Epstein-Barr virus infection in patients with immunodeficiency disorders, 319(6):392–396

Atherectomy, interventional revascularization of left main coronary artery stenosis with new devices: two cases of "unprotected" left main stenosis treated with atherectomy and stenting, 319(5):314–319

Autoimmune disease
- acquired neuromyotonia: new autoantibody-mediated neuronal potassium channelopathy, 319(4):209–216
- Addison disease after appendicitis, 319(3):195–196
- antibodies to calcium channel and synaptotagmin in Lambert-Easton myasthenic syndrome, 319(4):204–208
- antiglycolipid antibodies in Guillain-Barré syndrome and autoimmune neuropathies, 319(4):234–239
- autoantibodies in inflammatory myopathies, 319(4):227–233
- autoantibodies in paraneoplastic neurological syndrome, 319(4):217–226
- symposium introduction: antibodies in clinical neurology, 319(4):203

Autonomic nervous system, neurally mediated hypotension in fatigued Gulf War veterans: preliminary report, 319(2):89–95

Bacteremia, anaerobic, in neutropenic patient with oral mucositis, 319(3): 189–190

Bardet-Biedl syndrome, type 4, human *FEM1B* gene maps to chromosome 15q22 and is excluded as gene for, 319(4):268–270

Behavior modification, safety, feasibility, and efficacy of a resistance training program in preadolescent obese children, 319(6):370–375

Benzodiazepines, restless legs syndrome: clinical features and treatment, 319(6):397–403

Bicalutamide, metastatic prostate cancer (with prostate-specific antigen of 9996) presenting as obstructive jaundice, 319(2):118–122

Bleeding
- acquired hemophilia masked by warfarin therapy, 319(3):197–201
- idiopathic adrenal hemorrhage, 319(5): 340–342

Blood pressure
- biphasic changes in nitric oxide generation in hemodialyzed patients with end-stage renal disease treated with recombinant human erythropoietin, 319(3):149–157
- coronary artery disease risk predicted by insulin resistance, plasma lipids, and hypertension in people without diabetes, 319(2):84–88
- neurally mediated hypotension in fatigued Gulf War veterans: preliminary report, 319(2):89–95

Blood transfusion, transfusion iron overload in adults with acute leukemia: manifestations and therapy, 319(2):73–78

Bronchiolitis, diffuse panbronchiolitis in Latin America, 319(3):183–185
Bronchospasm, syndromes of severe asthma, 319(3):166–176

C-reactive protein antigen, modified, immunohistochemical localization in normal vascular tissue, 319(2): 79–83
Calcium
antibodies to calcium channel and synaptotagmin in Lambert-Easton myasthenic syndrome, 319(4):204–208
lymphocytic intracellular calcium in patient with complicated verapamil overdose, 319(1):63–67
normocalcemic hyperparathyroidism in Vietnamese immigrants living in Southern California, 319(6):380–384
primary hyperparathyroidism in twin pregnancy and review of fetal/maternal calcium homeostasis, 319(3): 191–194
Calcium channel blockers, lymphocytic intracellular calcium in patient with complicated verapamil overdose, 319(1):63–67
Cancer
acute fulminant lactic acidosis complicating metastatic cholangiocarcinoma, 319(2):126–129
anaerobic bacteremia in neutropenic patient with oral mucositis, 319(3): 189–190
autoantibodies in paraneoplastic neurological syndrome, 319(4):217–226
chronic myelomonocytic leukemia with t(1;3)(p36; q21) and a synchronous gastric cancer, 319(4):258–260
internal carotid artery occlusion in patient with malignant peritoneal mesothelioma: is it a sign of malignant-related thrombosis?, 319(4): 265–267
metastatic prostate cancer (with prostate-specific antigen of 9996) presenting as obstructive jaundice, 319(2):118–122
propylthiouracil reduces xenograft tumor growth in athymic nude mouse prostate cancer model, 319(2): 96–99
transfusion iron overload in adults with acute leukemia: manifestations and therapy, 319(2):73–78
Candidiasis, may induce glossodynia without objective manifestation, 319(2):100–105
Cardiology Grand Rounds
interventional revascularization of left main coronary artery stenosis with new devices: two cases of "unprotected" left main stenosis treated with atherectomy and stenting, 319(5):314–319
use of intraluminal stents in the treatment of carotid, renal, and peripheral arterial disease, 319(2):111–117
Cardiovascular disease
complications of diuretics, 319(1):10–24
echocardiographic parameters in reversible idiopathic dilated cardiomyopathy, 319(6):366–369
hypoplasia of inferior vena cava with azygous continuation presenting as recurrent leg deep vein thrombosis, 319(6):414–416
internal carotid artery occlusion in patient with malignant peritoneal mesothelioma: is it a sign of malignant-related thrombosis?, 319(4): 265–267
interventional revascularization of left main coronary artery stenosis with new devices: two cases of "unprotected" left main stenosis treated with atherectomy and stenting, 319(5):314–319
rising levels of cardiovascular mortality in Mississippi, 1979–1995, 319(3): 131–137
use of intraluminal stents in the treatment of carotid, renal, and peripheral arterial disease, 319(2):111–117
Carotid artery disease
internal carotid artery occlusion in patient with malignant peritoneal mesothelioma: is it a sign of malignant-related thrombosis?, 319(4): 265–267
use of intraluminal stents in the treatment of carotid, renal, and peripheral arterial disease, 319(2):111–117
Case Records of the VA Maryland Health Care System
psychiatric clinicopathological conference, 319(3):158–165
78-year-old woman with leg pain and weakness, 319(6):404–410
Catamenial pneumothorax, spiral computerized tomography and video thoracoscopy in, 319(3):186–188
Cervical infection, *Chlamydia trachomatis* in women at low risk for infection, 319(2):123–125
Chediak-Higashi syndrome, Epstein-Barr virus infection in patients with immunodeficiency disorders, 319(6):392–396
Children
Addison disease after appendicitis, 319(3):195–196
safety, feasibility, and efficacy of a resistance training program in preadolescent obese children, 319(6):370–375
Chlamydia trachomatis, cervical, in women at low risk for infection, 319(2):123–125
Cholangiocarcinoma, metastatic, complicated by acute fulminant lactic acidosis, 319(2):126–129
Chronic fatigue syndrome, neurally mediated hypotension in fatigued Gulf War veterans: preliminary report, 319(2):89–95
Chronic inflammatory demyelinating polyneuropathy, antiglycolipid antibodies in Guillain-Barré syndrome and autoimmune neuropathies, 319(4):234–239
Chronic myelomonocytic leukemia, with t(1;3)(p36; q21) and a synchronous gastric cancer, 319(4):258–260
Chürg-Strauss syndrome, syndromes of severe asthma, 319(3):166–176
Cirrhosis, diuretics for treatment of edematous disorders, 319(1):25–37
Clonidine, restless legs syndrome: clinical features and treatment, 319(6): 397–403
Clostridium difficile, convulsions induced by metronidazole treatment for *Clostridium difficile*-associated disease in chronic renal failure, 319(5):338–339
Cobalamin deficiency, etiology and diagnostic evaluation of macrocytosis, 319(6):343–352
Common variable immunodeficiency, Epstein-Barr virus infection in patients with immunodeficiency disorders, 319(6):392–396
Complications
acute fulminant lactic acidosis complicating metastatic cholangiocarcinoma, 319(2):126–129
convulsions induced by metronidazole treatment for *Clostridium difficile*-associated disease in chronic renal failure, 319(5):338–339
of diuretics, 319(1):10–24
lymphocytic intracellular calcium in patient with complicated verapamil overdose, 319(1):63–67
transfusion iron overload in adults with acute leukemia: manifestations and therapy, 319(2):73–78
Computerized tomography, spiral, and video thoracoscopy in catamenial pneumothorax, 319(3):186–188
Congestive heart failure, diuretics for treatment of edematous disorders, 319(1):25–37
Convulsions, induced by metronidazole treatment for *Clostridium difficile*-associated disease in chronic renal failure, 319(5):338–339
Coronary artery disease
interventional revascularization of left main coronary artery stenosis with new devices: two cases of "unprotected" left main stenosis treated with atherectomy and stenting, 319(5):314–319
risk predicted by insulin resistance, plasma lipids, and hypertension in people without diabetes, 319(2): 84–88
Corticosteroids
focal segmental glomerulosclerosis in African Americans: effects of angiotensin converting enzyme inhibitors and, 319(5):320–325
syndromes of severe asthma, 319(3): 166–176
Crystal nephropathy, acute renal failure in HIV-infected patients: brief review of common causes, 319(6): 385–391

Cultural diversity, teaching anthropology in medical curriculum, 319(5): 297–305
Cytogenetics
chronic myelomonocytic leukemia with t(1;3)(p36; q211) and a synchronous gastric cancer, 319(4):258–260
human *FEM1B* gene maps to chromosome 15q22 and is excluded as gene for Bardet-Biedl syndrome, type 4, 319(4):268–270

Dermatomyositis, autoantibodies in inflammatory myopathies, 319(4): 227–233
Diabetes insipidus, transient, and hypopituitarism after pituitary apoplexy: rare association with pericardial effusion and painless thyroiditis, 319(4):261–264
Diabetes mellitus
dose-response profile of acarbose in older subjects with type 2 diabetes, 319(5):334–337
transcriptional regulation of transforming growth factor b1 by glucose: investigation into the role of the hexosamine biosynthesis pathway, 319(3):138–142
type 2, comparative efficacy and potency of long-term therapy with glipizide or glyburide in patients with, 319(3):143–148
Diagnosis
acquired hemophilia masked by warfarin therapy, 319(3):197–201
beyond diagnosis: patient mix and challenges to patient care in ambulatory training sites, 319(2):106–110
cervical *Chlamydia trachomatis* in women at low risk for infection, 319(2):123–125
etiology and diagnostic evaluation of macrocytosis, 319(6):343–352
metastatic prostate cancer (with prostate-specific antigen of 9996) presenting as obstructive jaundice, 319(2):118–122
psychiatric clinicopathological conference, 319(3):158–165
restless legs syndrome: clinical features and treatment, 319(6):397–403
78-year-old woman with leg pain and weakness, 319(6):404–410
Diarrhea, convulsions induced by metronidazole treatment for *Clostridium difficile*-associated disease in chronic renal failure, 319(5):338–339
Diffuse panbronchiolitis, in Latin America, 319(3):183–185
Dilated cardiomyopathy, reversible idiopathic, echocardiographic parameters in, 319(6):366–369
Diuretics
complications of, 319(1):10–24
pharmacology of, 319(1):38–50
physiology of renal sodium transport, 319(1):51–62
and therapy of hypertension, 319(1):1–9
for treatment of edematous disorders, 319(1):25–37
Dopamine agonists, restless legs syndrome: clinical features and treatment, 319(6):397–403

Echocardiography, in reversible idiopathic dilated cardiomyopathy, 319(6):366–369
Economic issues
the future catches up: a medical school curriculum in health economics, 319(5):306–313
restricting Medicaid payments for transportation: effects on inner-city patients' health care, 319(5):326–333
Edema, diuretics for, 319(1):25–37
Elderly persons
dose-response profile of acarbose in older subjects with type 2 diabetes, 319(5):334–337
primary meningococcal pneumonia in, 319(4):255–257
Electronic medical records, antibiotics and return visits for respiratory illness: comparison of pooled versus hierarchical statistical methods, 319(6):360–365
Epidemiology, rising levels of cardiovascular mortality in Mississippi, 1979–1995, 319(3):131–137
Epstein-Barr virus infection, in patients with immunodeficiency disorders, 319(6):392–396
Erythropoietin, biphasic changes in nitric oxide generation in hemodialyzed patients with end-stage renal disease treated with recombinant human erythropoietin, 319(3):149–157
Ethics, challenges in teaching in medical schools, 319(5):273–278
Exercise, safety, feasibility, and efficacy of a resistance training program in preadolescent obese children, 319(6):370–375

Factor VIII, acquired hemophilia masked by warfarin therapy, 319(3):197–201
Fat necrosis, disseminated, with asymptomatic pancreatitis, 319(1):68–72
Fatigue, neurally mediated hypotension in fatigued Gulf War veterans: preliminary report, 319(2):89–95
***FEM1B* gene,** maps to chromosome 15q22 and is excluded as gene for Bardet-Biedl syndrome, type 4, 319(4):268–270
Focal segmental glomerulosclerosis, in African Americans: effects of steroids and angiotensin converting enzyme inhibitors, 319(5):320–325
Fungal infection, candidiasis may induce glossodynia without objective manifestation, 319(2):100–105

Gastric cancer, synchronous with chronic myelomonocytic leukemia with t(1;3)(p36; q21), 319(4):258–260
Genital infection, cervical *Chlamydia trachomatis* in women at low risk for infection, 319(2):123–125
Glipizide, comparative efficacy and potency of long-term therapy with glipizide or glyburide in patients with type 2 diabetes, 319(3):143–148
Glossodynia, candidiasis may induce glossodynia without objective manifestation, 319(2):100–105
Glucose
comparative efficacy and potency of long-term therapy with glipizide or glyburide in patients with type 2 diabetes, 319(3):143–148
transcriptional regulation of transforming growth factor β1 by glucose: investigation into the role of the hexosamine biosynthesis pathway, 319(3):138–142
Glyburide, comparative efficacy and potency of long-term therapy with glipizide or glyburide in patients with type 2 diabetes, 319(3):143–148
Graves disease, delayed recovery of thyrotropin responsiveness after radioactive iodine therapy for hyperthyroidism, 319(6):376–379
Guillain-Barré syndrome, antiglycolipid antibodies in Guillain-Barré syndrome and autoimmune neuropathies, 319(4):234–239
Gulf-War syndrome, neurally mediated hypotension in fatigued Gulf War veterans: preliminary report, 319(2):89–95

Health economics, medical school curriculum in, 319(5):306–313
Hematology
chronic myelomonocytic leukemia with t(1;3)(p36; q21) and a synchronous gastric cancer, 319(4):258–260
etiology and diagnostic evaluation of macrocytosis, 319(6):343–352
transfusion iron overload in adults with acute leukemia: manifestations and therapy, 319(2):73–78
Hemodialysis, biphasic changes in nitric oxide generation in hemodialyzed patients with end-stage renal disease treated with recombinant human erythropoietin, 319(3):149–157
Hemophilia, acquired, masked by warfarin therapy, 319(3):197–201
Hepatitis A virus, acute: combination of relapsing and cholestatic forms, two rare variants, 319(6):417–419
Hepatitis C virus, prevalence of seropositivity among hospitalized US veterans, 319(6):353–359
Hexosamine biosynthesis pathway, transcriptional regulation of transforming growth factor β1 by glucose: investigation into the role

of the hexosamine biosynthesis pathway, 319(3):138–142
History of medicine, teaching at academic medical centers, 319(5):279–284
HIV infection
acute renal failure in: brief review of common causes, 319(6):385–391
Epstein-Barr virus infection in patients with immunodeficiency disorders, 319(6):392–396
Humanities teaching in academic medical centers
challenges in teaching ethics in medical schools, 319(5):273–278
the future catches up: a medical school curriculum in health economics, 319(5):306–313
from Laennec to lobotomy: teaching medical history at academic medical centers, 319(5):279–284
reading, writing, and doctoring: literature and medicine, 319(5):285–291
seeing patients and life contexts: the visual arts in medical education, 319(5):292–296
symposium on: beyond the hematocrit and Po_2, 319(5):271–272
teaching anthropology in the medical curriculum, 319(5):297–305
Hypercalcemia, complications of diuretics, 319(1):10–24
Hyperglycemia, transcriptional regulation of transforming growth factor β1 by glucose: investigation into the role of the hexosamine biosynthesis pathway, 319(3):138–142
Hyperkalemia, complications of diuretics, 319(1):10–24
Hyperparathyroidism
normocalcemic, in Vietnamese immigrants living in Southern California, 319(6):380–384
primary, in twin pregnancy and review of fetal/maternal calcium homeostasis, 319(3):191–194
Hypertension
biphasic changes in nitric oxide generation in hemodialyzed patients with end-stage renal disease treated with recombinant human erythropoietin, 319(3):149–157
coronary artery disease risk predicted by insulin resistance, plasma lipids, and hypertension in people without diabetes, 319(2):84–88
diuretics and therapy of, 319(1):1–9
Hyperthyroidism, delayed recovery of thyrotropin responsiveness after radioactive iodine therapy for, 319(6):376–379
Hyperuricemia, complications of diuretics, 319(1):10–24
Hypokalemia, complications of diuretics, 319(1):10–24
Hypomagnesemia, complications of diuretics, 319(1):10–24
Hyponatremia
complications of diuretics, 319(1):10–24
urine/plasma electrolyte ratio: a predictive guide to water restriction, 319(4):240–244
Hypopituitarism, transient diabetes insipidus and hypopituitarism after pituitary apoplexy: rare association with pericardial effusion and painless thyroiditis, 319(4):261–264
Hypotension, neurally mediated, in fatigued Gulf War veterans: preliminary report, 319(2):89–95
Hypothyroidism, propylthiouracil reduces xenograft tumor growth in athymic nude mouse model, 319(2):96–99

Idiopathic pulmonary hemosiderosis, with cystic lesions: rare presentation, 319(6):411–413
IgM paraproteinemic neuropathy, antiglycolipid antibodies in Guillain-Barré syndrome and autoimmune neuropathies, 319(4):234–239
Imaging
echocardiographic parameters in reversible idiopathic dilated cardiomyopathy, 319(6):366–369
spiral computerized tomography and video thoracoscopy in catamenial pneumothorax, 319(3):186–188
Immunocompromised host. *See also* Cancer
acute renal failure in HIV-infected patients: brief review of common causes, 319(6):385–391

acute fulminant lactic acidosis complicating metastatic cholangiocarcinoma, 319(2):126–129
prostate cancer (with prostate-specific antigen of 9996) presenting as obstructive jaundice, 319(2):118–122
Metronidazole, convulsions induced by metronidazole treatment for *Clostridium difficile*-associated disease in chronic renal failure, 319(5):338–339
Modified C-reactive protein antigen, immunohistochemical localization in normal vascular tissue, 319(2): 79–83
Mortality, rising levels of cardiovascular mortality in Mississippi, 1979–1995, 319(3):131–137
Mycobacterium tuberculosis, sternal osteomyelitis caused by: case report and review of literature, 319(4): 250–254
Myopathies, inflammatory, autoantibodies in, 319(4):227–233

Neisseria meningitidis, primary meningococcal pneumonia in elderly patients, 319(4):255–257
Nephrolithiasis, complications of diuretics, 319(1):10–24
Nephrotic syndrome, diuretics for treatment of edematous disorders, 319(1):25–37
Nephrotoxins, acute renal failure in HIV-infected patients: brief review of common causes, 319(6):385–391
Neurological disorders
acquired neuromyotonia: new autoantibody-mediated neuronal potassium channelopathy, 319(4):209–216
antibodies to calcium channel and synaptotagmin in Lambert-Easton myasthenic syndrome, 319(4):204–208
antiglycolipid antibodies in Guillain-Barré syndrome and autoimmune neuropathies, 319(4):234–239
autoantibodies in inflammatory myopathies, 319(4):227–233
autoantibodies in paraneoplastic neurological syndrome, 319(4):217–226
78-year-old woman with leg pain and weakness, 319(6):404–410
symposium introduction: antibodies in clinical neurology, 319(4):203
Neuropsychological testing, psychiatric clinicopathological conference, 319(3):158–165
Neutropenia, anaerobic bacteremia in neutropenic patient with oral mucositis, 319(3):189–190
Nitric oxide, biphasic changes in nitric oxide generation in hemodialyzed patients with end-stage renal disease treated with recombinant human erythropoietin, 319(3):149–157

Obesity, safety, feasibility, and efficacy of a resistance training program in preadolescent obese children, 319(6):370–375
Obstructive jaundice, metastatic prostate cancer (with prostate-specific antigen of 9996) presenting as, 319(2):118–122
Opiates, restless legs syndrome: clinical features and treatment, 319(6): 397–403
Oral mucositis, anaerobic bacteremia in neutropenic patient with, 319(3): 189–190
Organ transplant recipients, Epstein-Barr virus infection in patients with immunodeficiency disorders, 319(6):392–396
Osteomyelitis, sternal, caused by *Mycobacterium tuberculosis:* case report and review of literature, 319(4): 250–254
Ototoxicity, complications of diuretics, 319(1):10–24
Outcomes research, developing theoretical constructs for, 319(4):245–249

Pain, candidiasis may induce glossodynia without objective manifestation, 319(2):100–105
Pancreatitis, asymptomatic, disseminated fat necrosis with, 319(1): 68–72
Paraneoplastic disease
antibodies to calcium channel and synaptotagmin in Lambert-Easton myasthenic syndrome, 319(4):204–208
autoantibodies in paraneoplastic neurological syndrome, 319(4):217–226
Parathyroid disease
normocalcemic hyperparathyroidism in Vietnamese immigrants living in Southern California, 319(6):380–384
primary hyperparathyroidism in twin pregnancy and review of fetal/maternal calcium homeostasis, 319(3): 191–194
Pericardial effusion, transient diabetes insipidus and hypopituitarism after pituitary apoplexy: rare association with pericardial effusion and painless thyroiditis, 319(4):261–264
Peripheral artery disease, use of intraluminal stents in the treatment of carotid, renal, and peripheral arterial disease, 319(2):111–117
Pharmacology, of diuretics, 319(1): 38–50
Physician-patient relationship, beyond diagnosis: patient mix and challenges to patient care in ambulatory training sites, 319(2):106–110
Physiology, of renal sodium transport, 319(1):51–62
Pituitary apoplexy, transient diabetes insipidus and hypopituitarism after: rare association with pericardial effusion and painless thyroiditis, 319(4):261–264
Plasma lipids, coronary artery disease risk predicted by insulin resistance, plasma lipids, and hypertension in people without diabetes, 319(2): 84–88
Pneumonia, primary meningococcal, in elderly patients, 319(4):255–257
Pneumothorax, catamenial, spiral computerized tomography and video thoracoscopy in, 319(3):186–188
Polymerase chain reaction, cervical *Chlamydia trachomatis* in women at low risk for infection, 319(2):123–125
Polymyositis, autoantibodies in inflammatory myopathies, 319(4):227–233
Potassium, acquired neuromyotonia: new autoantibody-mediated neuronal potassium channelopathy, 319(4): 209–216
Practice-based research network, antibiotics and return visits for respiratory illness: comparison of pooled

versus hierarchical statistical methods, 319(6):360–365
Pregnancy, primary hyperparathyroidism in twin pregnancy and review of fetal/maternal calcium homeostasis, 319(3):191–194
Propylthiouracil, reduces xenograft tumor growth in athymic nude mouse prostate cancer model, 319(2): 96–99
Prostate cancer
metastatic (with prostate-specific antigen of 9996), presenting as obstructive jaundice, 319(2):118–122
propylthiouracil reduces xenograft tumor growth in athymic nude mouse model, 319(2):96–99
Psychiatric clinicopathological conference, 319(3):158–165
Pulmonary disease
diffuse panbronchiolitis in Latin America, 319(3):183–185
effect of disease states on theophylline serum concentrations: are we still vigilant?, 319(3):177–182
idiopathic pulmonary hemosiderosis with cystic lesions: rare presentation, 319(6):411–413
primary meningococcal pneumonia in elderly patients, 319(4):255–257
syndromes of severe asthma, 319(3): 166–176

Radioactive iodine, for hyperthyroidism, delayed recovery of thyrotropin responsiveness after, 319(6):376–379
Renal artery disease, use of intraluminal stents in the treatment of carotid, renal, and peripheral arterial disease, 319(2):111–117
Renal disease
acute renal failure in HIV-infected patients: brief review of common causes, 319(6):385–391
biphasic changes in nitric oxide generation in hemodialyzed patients with end-stage renal disease treated with recombinant human erythropoietin, 319(3):149–157
convulsions induced by metronidazole treatment for *Clostridium difficile*-associated disease in chronic renal failure, 319(5):338–339
diuretics for treatment of edematous disorders, 319(1):25–37
focal segmental glomerulosclerosis in African Americans: effects of steroids and angiotensin converting enzyme inhibitors, 319(5):320–325
transcriptional regulation of transforming growth factor β1 by glucose: investigation into the role of the hexosamine biosynthesis pathway, 319(3):138–142
Renal sodium transport, physiology of, 319(1):51–62
Research, developing theoretical constructs for outcomes research, 319(4):245–249
Resistance training, safety, feasibility, and efficacy of a resistance training program in preadolescent obese children, 319(6):370–375
Respiratory illness, antibiotics and return visits for: comparison of pooled versus hierarchical statistical methods, 319(6):360–365
Restless legs syndrome, clinical features and treatment, 319(6):397–403
Reticulocytosis, etiology and diagnostic evaluation of macrocytosis, 319(6): 343–352
Revascularization, interventional, of left main coronary artery stenosis with new devices: two cases of "unprotected" left main stenosis treated with atherectomy and stenting, 319(5):314–319
Risk factors, coronary artery disease risk predicted by insulin resistance, plasma lipids, and hypertension in people without diabetes, 319(2): 84–88

Screening, cervical *Chlamydia trachomatis* in women at low risk for infection, 319(2):123–125
Seizures, induced by metronidazole treatment for *Clostridium difficile*-associated disease in chronic renal failure, 319(5):338–339
Severe combined immunodeficiency disease, Epstein-Barr virus infection in patients with immunodeficiency disorders, 319(6):392–396
Sexual dysfunction, complications of diuretics, 319(1):10–24
Sinusitis, diffuse panbronchiolitis in Latin America, 319(3):183–185
Skin conditions, disseminated fat necrosis with asymptomatic pancreatitis, 319(1):68–72
Small cell lung cancer
antibodies to calcium channel and synaptotagmin in Lambert-Easton myasthenic syndrome, 319(4):204–208
autoantibodies in paraneoplastic neurological syndrome, 319(4):217–226
Sodium transport, renal, 319(1):51–62
Southwestern Internal Medicine Conference
developing theoretical constructs for outcomes research, 319(4):245–249
syndromes of severe asthma, 319(3): 166–176
Statistical analysis, antibiotics and return visits for respiratory illness: comparison of pooled versus hierarchical statistical methods, 319(6): 360–365
Stents
interventional revascularization of left main coronary artery stenosis with new devices: two cases of "unprotected" left main stenosis treated with atherectomy and stenting, 319(5):314–319
use of intraluminal stents in the treatment of carotid, renal, and peripheral arterial disease, 319(2):111–117
Sternal osteomyelitis, caused by *Mycobacterium tuberculosis:* case report and review of literature, 319(4): 250–254
Stomach cancer, synchronous with chronic myelomonocytic leukemia with t(1;3)(p36; q21), 319(4):258–260
Synaptotagmin
antibodies to calcium channel and synaptotagmin in Lambert-Easton myasthenic syndrome, 319(4):204–208
autoantibodies in paraneoplastic neurological syndrome, 319(4):217–226

Theophylline, effect of disease states on theophylline serum concentrations: are we still vigilant?, 319(3):177–182
Theoretical constructs, for outcomes research, 319(4):245–249
Thoracic endometriosis syndrome, spiral computerized tomography and video thoracoscopy in catamenial pneumothorax, 319(3):186–188
Thrombosis
hypoplasia of inferior vena cava with azygous continuation presenting as recurrent leg deep vein thrombosis, 319(6):414–416
internal carotid artery occlusion in patient with malignant peritoneal mesothelioma: is it a sign of malignant-related thrombosis?, 319(4): 265–267
Thyroid disorders
delayed recovery of thyrotropin responsiveness after radioactive iodine therapy for hyperthyroidism, 319(6):376–379
propylthiouracil reduces xenograft tumor growth in athymic nude mouse model, 319(2):96–99
transient diabetes insipidus and hypopituitarism after pituitary apoplexy: rare association with pericardial effusion and painless thyroiditis, 319(4):261–264
Thyrotropin, delayed recovery of thyrotropin responsiveness after radioactive iodine therapy for hyperthyroidism, 319(6):376–379
Transforming growth factor b1, transcriptional regulation by glucose: investigation into the role of the hexosamine biosynthesis pathway, 319(3):138–142
Transfusion iron overload, in adults with acute leukemia: manifestations and therapy, 319(2):73–78
Translocation, chronic myelomonocytic leukemia with t(1;3)(p36; q21) and a synchronous gastric cancer, 319(4):258–260
Transportation, restricting Medicaid payments for: effects on inner-city patients' health care, 319(5):326–333

Tuberculosis, sternal osteomyelitis caused by *Mycobacterium tuberculosis:* case report and review of literature, 319(4):250–254

Urine/plasma electrolyte ratio, predictive guide to water restriction, 319(4):240–244

Ursodeoxycholic acid, acute hepatitis A: combination of relapsing and cholestatic forms, two rare variants, 319(6):417–419

Vasculature
hypoplasia of inferior vena cava with azygous continuation presenting as recurrent leg deep vein thrombosis, 319(6):414–416
immunohistochemical localization of modified C-reactive protein in normal vascular tissue, 319(2):79–83
internal carotid artery occlusion in patient with malignant peritoneal mesothelioma: is it a sign of malignant-related thrombosis?, 319(4):265–267
interventional revascularization of left main coronary artery stenosis with new devices: two cases of "unprotected" left main stenosis treated with atherectomy and stenting, 319(5):314–319
use of intraluminal stents in the treatment of carotid, renal, and peripheral arterial disease, 319(2):111–117

Verapamil, lymphocytic intracellular calcium in patient with complicated overdose of, 319(1):63–67

Video thoracoscopy, spiral computerized tomography and, in catamenial pneumothorax, 319(3):186–188

Visual arts, in medical education, seeing patients and life contexts, 319(5):292–296

Voltage-gated calcium channell, antibodies to calcium channel and synaptotagmin in Lambert-Easton myasthenic syndrome, 319(4):204–208

Volume depletion, complications of diuretics, 319(1):10–24

Warfarin therapy, acquired hemophilia masked by, 319(3):197–201

Water restriction, urine/plasma electrolyte ratio: a predictive guide to, 319(4):240–244

Weight management, safety, feasibility, and efficacy of a resistance training program in preadolescent obese children, 319(6):370–375

Wiskott-Aldrich syndrome, Epstein-Barr virus infection in patients with immunodeficiency disorders, 319(6):392–396

X-linked lymphoproliferative disease, Epstein-Barr virus infection in patients with immunodeficiency disorders, 319(6):392–396
